

EDITOR FOR IMMEDIATE RELEASE

ANS NAMES ATLANTA-BASED MANAGER

Paul Summers, bringing to Airline Network Services an international air cargo background of more than a quarter-century, has been appointed Southeast regional manager for the New York-headquartered general sales agency. He is based in Atlanta.

The announcement was made by Jens Tubbesing, chief executive, who stated that Summers' earlier executive associations were with Air Express International, Danzas, EGL Eagle, and ABX.

Tubbesing, formerly president of Cargo Network Services, noted that Summers, in an early overseas assignment, had been deeply involved in the development of AEI Airlines, a transatlantic CL44 all-cargo operation. Summers' activities in air freight forwarding placed him in diversified management capacities.

With offices in Atlanta, Chicago, Dallas, Los Angeles, New York and Seattle, ANS is staffed by representative professionals, fully conversant with and adaptable to customers' specific requirements.

ANS' Southeast regional branch can be reached by telephone at (404) 218-8238.

E-mail: paul.summers@ansgsa.com. The system's headquarters are located at 1979 Marcus Ave., New York 11042, near both Kennedy International and La Guardia Airports.
